invites you to the

Sydney Mahikari Centre

105 phillip St. Balmain

ph 9810 8261

where you can

experience a session of

purification

with the light of God

Sukyo Mahikari: the Light and teachings of God

Purification

The Light of God, radiated from the palm of the hand, purifies the spiritual, mental and physical aspects. It is a practice that can be done anywhere and at any time and is the main activity at Mahikari Centres all around the world.

Teachings

Mahikari teachings are both deep and far-reaching and are given in a way that is easy to understand.

Purification – together with the practice of the teachings – enables health, harmony and material well-being to be achieved step by step.

The teachings reveal that the origin of the world is one; the origin of all humankind is one; and the origin of all religions is one.

These teachings allow us to better understand the world we live in and the true cause of the various kinds of suffering of humanity.

Some of the important topics covered are:

- *Universal laws*
- *The invisible world*
- *Health*
- *Science*
- *Education*
- *The environment*

- *Universal laws*

Throughout history, people have tried to discover and understand the fundamental laws of the universe. Although today we know a great number of physical laws, we are largely unaware of many spiritual laws. Due to our lack of knowledge, we break them and this creates many problems. How should we act in order to live in harmony with our environment and with the whole universe?

- *The invisible world*

What is the truth about the unknown, invisible world? What happens after death? Does reincarnation exist? Can we be influenced by the invisible world?

As we have not been able to answer these questions, many people have limited their understanding of existence to just the visible and tangible world that can be perceived with the senses.

Nonetheless, the reality is quite different. Lack of knowledge of realms other than the physical one leads to much suffering.

- *Health*

People are always seeking a means to achieve a long life and good health. Research has been conducted all over the world for this purpose. But today, in spite of all this scientific progress, humanity has not been able to achieve perfect health. Once a disease seems to have been overcome, why does another one appear? How can true health be achieved?

- *Science*

Material science advances step by step towards the infinitely great and the minutely small. As it advances, the more scientists wonder where matter comes from. The basic teachings of Sukyo Mahikari give clear and understandable answers to many questions. Material science has reached the border of a new dimension. What will tomorrow's science be?

- *Education*

We see holistic education as involving purification with the Light of God; elevated attitudes and words from both parents and teachers; practising high-level principles and values; and achieving homes of love and harmony - in addition to the usual approach of acquiring knowledge and skills.

- *The environment*

It is important to have collaboration between God, humans and nature. The Light of God, positive attitudes and positive words as well as organic growing methods, have a great influence on plants and the environment. Find out about our approach to agriculture.

Mahikari answers these questions and many more. Through spiritual purification, each of us can have extraordinary experiences and thus confirm for ourselves the truth of the teachings.

SUKYO MAHIKARI prepares people for the 21st century

Sukyo Mahikari is an international, non-denominational, apolitical organisation that is concerned with helping to establish a better world through improving the quality of life for all living creatures and all things.

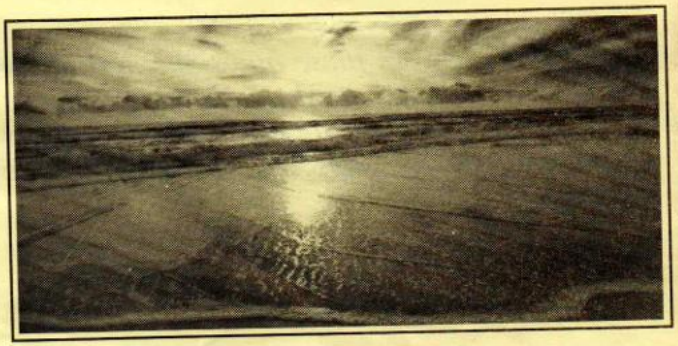
In recent years the future of humankind and our earth seems to be more and more in jeopardy – climatic changes, increasing pollution, deforestation, shaky economies, famines, disease, conflict, terrorism – to name a few.

What is happening to our world? What will become of civilisation? What positive approaches can we take?

Why Sukyo Mahikari at this time?

To learn more about this, come and experience purification with the Light of God at a Mahikari Centre and learn about some of the universal laws.

You can also find out about the three-day seminars that are held regularly at Mahikari Centres all over the world.

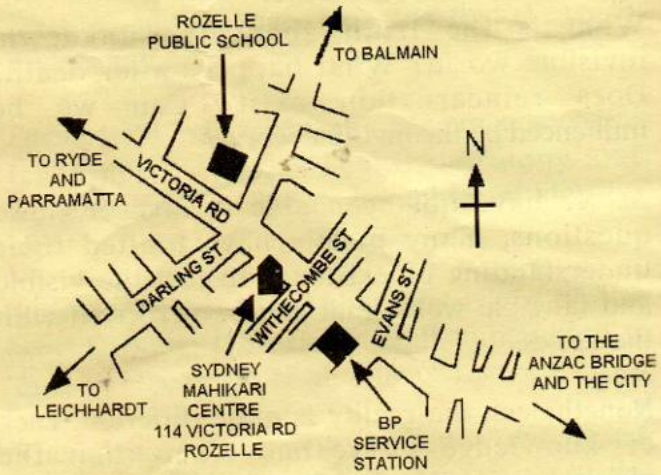


Opening Hours

The Sydney Mahikari Centre is open between 10:00 am and 7:00 pm Monday to Friday, and 10:00 am to 5:00 pm Saturday and Sunday. Please feel free to bring family and friends.

How to get there:

The Sydney Mahikari Centre
is located on the top floor,
114 Victoria Rd, Rozelle NSW 2039
Telephone: 9555 9608



Public transport

Take any 500 series bus from Circular Quay or Town Hall (Druitt St side) or a 501 bus from Central at Broadway. Alight at Darling St and walk back down the hill on the same side for 150 metres. Frequent buses return to the city.

Parking:

There is unrestricted free parking outside and two hour parking in nearby side streets.
